FEED BACK ON CURRICULUM AND ACTION TAKEN 2019-2020

The stakeholders have pointed out the following concerns:

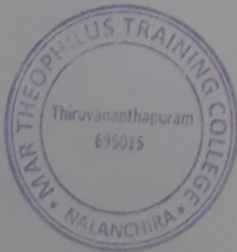

- More provision for communicative English
- Over stressed during online classes
- Overcrowded programmes
- Lack of lab experiences and library hours
- Lack of community experiences and field visits

Analysis and Suggestions

During COVID 19 pandemic period effective curriculum implantation was a big challenge and students were not able to take part in community and lab experiences. All the programmes both scholastic and co scholastic activities were conducted via online mode which created stress among student teachers. Semester had a lag and examination schedule also postponed due to lock down.

Remedial measures and Action taken

College started off line mode in January and trying to fill the gaps occurred in semester 1 & 2. Newly admitted students in January 2021 of semester 1 will start their course in off line mode. Number of co-scholastic programmes via online mode will be reduced. Online library provisions have been provided and students can access college library as and when required.
